**Subject:** Microsoft Settlement

DOJ: I am alarmed that the Microsoft case may be reopened. It seems to me that the litigation simply punished a company that innovated, created jobs and wealth, and was successful. I was happy to see the case settled and would not want that settlement derailed. I notice that since the DOJ began litigation against Microsoft, its stock price has declined. Is that what you call "the public interest?" My retirement mutual funds probably own Microsoft.

Sincerely,  
Shayna Alterman
